When companies scrap their AI initiatives, the problem is rarely the technology. It is the absence of a leadership playbook. IIT Bombay's AI Strategy, Leadership & Transformation course from Educational outreach, IIT Bombay gives you one: a Sense-Build-Transform framework that carries you from first insight to enterprise rollout across 3 months.

• **Sense the shifts**: Read AI as a socio-technical force, spot innovation patterns early, and audit where AI should assist, augment, or stay out of your decisions…
